## *Pure wedding photojournalism; simple, beautiful...*

Whether it's for an international publication or the tiniest wedding, we just love making beautiful photographs. We use our deep photojournalism experience to discretely capture the emotion of your special day. Our artistic heart will be in every photograph we create, even your group photos.

Prior to your wedding we will schedule a consultation where we will learn about you, your family traditions and your special guests. With this information we will then visit your wedding site to make sure we are prepared for the lighting and scene nuances of the location.

With our complete packages, there is no limit to the time we spend shooting your wedding or the number of photographs we create. Great photographs can happen at any time during a wedding so even with our basic coverage we do not limit ourselves in any way in trying to capture those moments. All you need to do is relax.
